General Recruitment Information*

Cigna strives to make improvements to our enrollment process to reduce the time it takes to process a health care professional's contract. We recently began offering electronic contracting to non-participating medical and behavioral health physicians and small practices who want a first-time standard contract with Cigna.

These physicians can use a secure website to complete and sign documents using EchoSign™ eSignature solution, which allows Cigna to provide a convenient, online audit trail that is safe, private and secure, and meets compliance and legal requirements.

The Cigna eSignature program saves not only time, but also paper and cost by removing the traditional printing and mailing, or faxing steps from the contracting process.

** Please note that the recruitment process varies based on market need, credentialing criteria and state law requirements.*

Cigna PPO Network refers to the health care professionals (doctors, hospitals, specialists) contracted as part of the GWH-Cigna PPO.
