Maximize Your Benefit

Your decisions play a key role in the effectiveness of your prescription benefit. Here are a few tips to help you maximize your benefit.

90 Day Prescriptions at Retail

- In addition to the current 90 day mail order benefit, we will begin offering 90 day prescriptions at retail with you paying the mail order benefit level

Request Generics

- Generic medications provide quality, cost-effective alternatives to brand medications and may help reduce costs to you and your plan.
- Ask your local pharmacy if they offer any low-cost generic programs. Use your prescription benefit card to process your order and receive the lower priced alternative, whether it is the pharmacy's generic program price or your copay.

Take Your Medications As Directed

- Taking medications exactly as prescribed is one of the most important things you can do to enhance your health and prevent medical complications.
- Missing doses, stopping medication early or swapping medications with other people can lead to serious problems that may negatively impact health outcomes.

Take Advantage of Over-The-Counter (OTC) Products

- Some medications that used to only be available by prescription (e.g., Claritin®, Prilosec®, and Zyrtec®) are now available over-the-counter without a prescription.
- Ask your doctor if any OTC alternatives are available to effectively treat your condition. Switching to an OTC product could save both you and your plan money.

Our Commitment

Your prescription benefit program is designed to help you and your eligible dependents obtain prescription medications conveniently and at reasonable prices. We are committed to:
