

Child Find

The Noble Local School District is committed to the location, identification, and provision of a Free and Appropriate Public Education (FAPE) for all children with disabilities, ages birth-22. If you know of a student with a suspected disability, please contact Francene Ogden, Special Education Director, at 740-732-5661, with any questions or names for referral within the Noble Local School District.

Preschool Children with Disabilities

If you suspect your child, age 2 to 5 may have a disability, please contact Gary Johnson, Bright Beginnings Preschool at 740-435-0320. You may also contact Francene Ogden at 740-732-5661.

Special Education Services

The Individuals with Disabilities Education Act (IDEA) requires that all states establish procedures to assure, "that to the maximum extent appropriate," students with disabilities are educated with children who are not disabled. Programs serving children with learning challenges and speech/language and other related services are available to students with disabilities depending on the individual needs of the identified student. Related services are support services necessary for students with disabilities to be successful in the general curriculum.
